WHY?

Education Outside the Classroom (EOTC) is any curriculum-based activity that takes place outside the school gate ranging from a museum or marae visit, sports trip, outdoor education camp, to a rocky shore field trip or surfing. Students at WBS have access to a unique environment – the beach – surfing is an experience that gives an opportunity to enhance learning in a different way.

Surfing at WBS enables Year 6 students to have the opportunity to participate in a water based activity in a recreational and sporting sense. Surfing provides students with a hands-on experience that is not available to them inside the classroom. It also provides the opportunity to develop safety skills in and out of the water. It is a unique and stimulating learning opportunity that supports learning and achievement.

HOW?

Thanks to stringent safety procedures, outstanding parental support (transport and supervision) during all surf sessions, positive guidance & energy from Shaun Collier and the energetic enthusiasm of our Year 6 students we can do it 😊
